

Selection Process

Our Pilot Selection Process is intended to find motivated and highly skilled Flight Crew Members.

The process is based on the following steps which are selective:

1. Technical competencies interview
2. English language knowledge assessment
3. Technical IT based knowledge test

Evaluation of results and first decision making by Darwin Airline Selection Board Members

4. Psychological assessment
5. Basic flying assessment SFTD
6. Humanistic interview

Please Note

The first interview, the English language assessment and the technical knowledge test are free of charge.

If the candidate has been confirmed to continue after having successfully passed the first part of the selection, the candidate will be asked to pay a contribution fee of CHF 400 for the upcoming second part of the selection. The amount will be deducted from the total costs of training if the pilot is going to be employed.
